Seamless Flexibility for Your Ideal Workspace

| TECHNICAL INFO |

Panel width: 12" - 48" in width, depending on the specific product.

Panel height: Can be as tall as 10 ft, depending on the specific product.

Panel thickness: Typically between 3/8"(10mm) and 1/2"(13mm) thick, depending on the specific product.

STC rating: 34 - 38

Leveling range: Has an overall leveling range of 1 and 1/4".

Doors: 6 door options (frameless glass, Framed glass and Solid), that come in either sliding or swing doors. They are non handed and can be modified at any point from right to left hand or interior exterior swing option.

*Custom 12mm laminated glass can also be ordered.

| BENEFITS |

- The tempered glass is durable and easy to clean, making it ideal for busy commercial environments.
- The glass panels improve acoustics by reducing sound transfer between spaces, creating a quieter and more productive work environment.
- The partitions are easily reconfigured and relocated, making them a cost-effective solution for businesses that need to adapt quickly to changing needs.
- Increased natural light to flow through the space, creating a brighter and more welcoming environment.
